**The Color of Law: A Forgotten History of How Our Government Segregated America** Richard Rothstein, 2017-05-02 New York Times Bestseller • Notable Book of the Year • Editors' Choice Selection One of Bill Gates' "Amazing Books" of the Year One of Publishers Weekly's 10 Best Books of the Year Longlisted for the National Book Award for Nonfiction An NPR Best Book of the Year Winner of the Hillman Prize for Nonfiction Gold Winner • California Book Award (Nonfiction) Finalist • Los Angeles Times Book Prize (History) Finalist • Brooklyn Public Library Literary Prize This "powerful and disturbing history" exposes how American governments deliberately imposed racial segregation on metropolitan areas nationwide (New York Times Book Review). Widely heralded as a "masterful" (Washington Post) and "essential" (Slate) history of the modern American metropolis, Richard Rothstein's *The Color of Law* offers "the most forceful argument ever published on how federal, state, and local governments gave rise to and reinforced neighborhood segregation" (William Julius Wilson). Exploding the myth of de facto segregation arising from private prejudice or the unintended consequences of economic forces, Rothstein describes how the American government systematically imposed residential segregation: with undisguised racial zoning; public housing that purposefully segregated previously mixed communities; subsidies for builders to create whites-only suburbs; tax exemptions for institutions that enforced segregation; and support for violent resistance to African Americans in white neighborhoods. A groundbreaking, "virtually indispensable" study that has already transformed our understanding of twentieth-century urban history (Chicago Daily Observer), *The Color of Law* forces us to face the obligation to remedy our unconstitutional past.

**The Negro Motorist Green Book** Victor H. Green, *The Negro Motorist Green Book* was a groundbreaking guide that provided African American travelers with crucial information on safe places to stay, eat, and visit during the era of segregation in the United States. This essential resource, originally published from 1936 to 1966, offered a lifeline to black motorists navigating a deeply divided nation, helping them avoid the dangers and indignities of racism on the road. More

than just a travel guide, *The Negro Motorist Green Book* stands as a powerful symbol of resilience and resistance in the face of oppression, offering a poignant glimpse into the challenges and triumphs of the African American experience in the 20th century.

*Communities in Action* National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Population Health and Public Health Practice, Committee on Community-Based Solutions to Promote Health Equity in the United States, 2017-04-27 In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

**Ending Discrimination Against People with Mental and Substance Use Disorders** National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Behavioral, Cognitive, and Sensory Sciences, Committee on the Science of Changing Behavioral Health Social Norms, 2016-09-03 Estimates indicate that as many as 1 in 4 Americans will experience a mental health problem or will misuse alcohol or drugs in their lifetimes. These disorders are among the most highly stigmatized health conditions in the United States, and they remain barriers to full participation in society in areas as basic as education, housing, and employment. Improving the lives of people with mental health and substance abuse disorders has been a priority in the United States for more than 50 years. The Community Mental Health Act of 1963 is considered a major turning point in America's efforts to improve behavioral healthcare. It ushered in an era of optimism and hope and laid the groundwork for the consumer movement and new models of recovery. The consumer movement gave voice to people with mental and substance use disorders and brought their perspectives and experience into national discussions about mental health. However over the same 50-year period, positive change in American public attitudes and beliefs about mental and substance use disorders has lagged behind these advances. Stigma is a complex social phenomenon based on a relationship between an attribute and a stereotype that assigns undesirable labels, qualities, and behaviors to a person with that attribute. Labeled individuals are then socially devalued, which leads to inequality and

discrimination. This report contributes to national efforts to understand and change attitudes, beliefs and behaviors that can lead to stigma and discrimination. Changing stigma in a lasting way will require coordinated efforts, which are based on the best possible evidence, supported at the national level with multiyear funding, and planned and implemented by an effective coalition of representative stakeholders. **Ending Discrimination Against People with Mental and Substance Use Disorders: The Evidence for Stigma Change** explores stigma and discrimination faced by individuals with mental or substance use disorders and recommends effective strategies for reducing stigma and encouraging people to seek treatment and other supportive services. It offers a set of conclusions and recommendations about successful stigma change strategies and the research needed to inform and evaluate these efforts in the United States.

**Understanding Racial and Ethnic Differences in Health in Late Life** National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Population, Panel on Race, Ethnicity, and Health in Later Life, 2004-09-08 As the population of older Americans grows, it is becoming more racially and ethnically diverse. Differences in health by racial and ethnic status could be increasingly consequential for health policy and programs. Such differences are not simply a matter of education or ability to pay for health care. For instance, Asian Americans and Hispanics appear to be in better health, on a number of indicators, than White Americans, despite, on average, lower socioeconomic status. The reasons are complex, including possible roles for such factors as selective migration, risk behaviors, exposure to various stressors, patient attitudes, and geographic variation in health care. This volume, produced by a multidisciplinary panel, considers such possible explanations for racial and ethnic health differentials within an integrated framework. It provides a concise summary of available research and lays out a research agenda to address the many uncertainties in current knowledge. It recommends, for instance, looking at health differentials across the life course and deciphering the links between factors presumably producing differentials and biopsychosocial mechanisms that lead to impaired health.

Segregation Carl H. Nightingale, 2016-07-11 When we think of segregation, what often comes to mind is apartheid South Africa, or the American South in the age of Jim Crow—two societies fundamentally premised on the concept of the separation of the races. But as Carl H. Nightingale shows us in this magisterial history, segregation is everywhere, deforming cities and societies worldwide. Starting with segregation’s ancient roots, and what the archaeological evidence reveals about humanity’s long-standing use of urban divisions to reinforce political and economic inequality, Nightingale then moves to the world of European colonialism. It was there, he shows, segregation based on color—and eventually on race—took hold; the British East India Company, for example, split Calcutta into “White Town” and “Black Town.” As we follow Nightingale’s story around the globe, we see that division replicated from Hong Kong to Nairobi, Baltimore to San Francisco, and more. The turn of the twentieth century saw the most aggressive segregation movements yet, as white communities almost everywhere set to rearranging whole cities along racial lines. Nightingale focuses closely on two striking examples: Johannesburg, with its state-sponsored separation, and Chicago, in which the goal of segregation was advanced by the more subtle methods of real estate markets and housing policy. For the first time ever, the majority of humans live in cities, and nearly all those cities bear the scars of segregation. This unprecedented, ambitious history lays bare our troubled past, and sets us on the path to imagining the better, more equal cities of the future.

**Measuring Racial Discrimination** National Research Council, Division of Behavioral and Social Sciences and Education, Committee on National Statistics, Panel on Methods for Assessing Discrimination, 2004-07-24 Many racial and ethnic groups in the United States, including blacks, Hispanics, Asians, American Indians, and others, have historically faced severe discrimination—pervasive and open denial of civil, social, political, educational, and economic opportunities. Today, large differences among racial and ethnic groups continue to exist in employment, income and wealth, housing, education, criminal justice, health, and other areas. While many factors may contribute to such differences, their size and extent suggest that various forms of discriminatory treatment persist in U.S. society and serve to undercut the achievement of equal opportunity. *Measuring Racial Discrimination* considers the definition of race and racial discrimination, reviews the existing techniques used to measure racial discrimination, and identifies new tools and areas for future research. The book conducts a thorough evaluation of current methodologies for a wide range of circumstances in which racial discrimination may occur, and makes recommendations on how to better assess the presence and effects of discrimination.

**The Rise and Fall of Jim Crow** Richard Wormser,2004-02-05 Lynchings and beatings by night. Demeaning treatment by day. A life of crushing subordination for Southern blacks maintained by white supremacist laws and customs known as Jim Crow. The Rise and Fall of Jim Crow documents the brutal and oppressive era in American history, spanning the years from the end of the Civil War to the start of the modern Civil Rights Movement in the 1950s. As the twenty-first century rolls forward, we are losing the remaining survivors of this pivotal era. Incorporating eyewitness testimony and over seventy-five rare and compelling archival images, The Rise and Fall of Jim Crow is a poignant record of the African American struggle for freedom and the triumph of community spirit over institutions and laws designed to suppress it--Back cover

**Letter from Birmingham Jail** MARTIN LUTHER KING JR.,Martin Luther King,2018 This landmark missive from one of the greatest activists in history calls for direct, non-violent resistance in the fight against racism, and reflects on the healing power of love.

**Brown v. Board of Education** James T. Patterson,2001-03-01 2004 marks the fiftieth anniversary of the Supreme Court's unanimous decision to end segregation in public schools. Many people were elated when Supreme Court Chief Justice Earl Warren delivered Brown v. Board of Education of Topeka in May 1954, the ruling that struck down state-sponsored racial segregation in America's public schools. Thurgood Marshall, chief attorney for the black families that launched the litigation, exclaimed later, I was so happy, I was numb. The novelist Ralph Ellison wrote, another battle of the Civil War has been won. The rest is up to us and I'm very glad. What a wonderful world of possibilities are unfolded for the children! Here, in a concise, moving narrative, Bancroft Prize-winning historian James T. Patterson takes readers through the dramatic case and its fifty-year aftermath. A wide range of characters animates the story, from the little-known African Americans who dared to challenge Jim Crow with lawsuits (at great personal cost); to Thurgood Marshall, who later became a Justice himself; to Earl Warren, who shepherded a fractured Court to a unanimous decision. Others include segregationist politicians like Governor Orval Faubus of Arkansas; Presidents Eisenhower, Johnson, and Nixon; and controversial Supreme Court justices such as William Rehnquist and Clarence Thomas. Most Americans still see Brown as a triumph--but was it? Patterson

shrewdly explores the provocative questions that still swirl around the case. Could the Court--or President Eisenhower--have done more to ensure compliance with Brown? Did the decision touch off the modern civil rights movement? How useful are court-ordered busing and affirmative action against racial segregation? To what extent has racial mixing affected the academic achievement of black children? Where indeed do we go from here to realize the expectations of Marshall, Ellison, and others in 1954?

**Going North** Janice N. Harrington, Jerome Lagarrigue, 2004-09-08 An African American family becomes a new kind of pioneer Leaving behind Big Mama, loving relatives, and the familiar red soil and cotton fields of Alabama, Jessie and her family are going north to Nebraska. They are pioneers searching for a better life, one with decent schools and jobs. But traveling through the segregated South is difficult for an African American family in the 1960s. With most public places reserved for whites only, where will they stop to get gas and food? Lyrical free verse and evocative paintings capture the rhythm of the road and a young girl's longing as she wonders: Will I like it there? Will I like the North?

*Finding Langston* Lesa Cline-Ransome, 2018-08-14 A Coretta Scott King Author Honor Book Winner of the Scott O'Dell Award for Historical Fiction When eleven-year-old Langston's father moves them from their home in Alabama to Chicago's Bronzeville district, it feels like he's giving up everything he loves. It's 1946. Langston's mother has just died, and now they're leaving the rest of his family and friends. He misses everything-- Grandma's Sunday suppers, the red dirt roads, and the magnolia trees his mother loved. In the city, they live in a small apartment surrounded by noise and chaos. It doesn't feel like a new start, or a better life. At home he's lonely, his father always busy at work; at school he's bullied for being a country boy. But Langston's new home has one fantastic thing. Unlike the whites-only library in Alabama, the Chicago Public Library welcomes everyone. There, hiding out after school, Langston discovers another Langston--a poet whom he learns inspired his mother enough to name her only son after him. Lesa Cline-Ransome, author of the Coretta Scott King Honor picture book *Before She Was Harriet*, has crafted a lyrical debut novel about one boy's experiences during the Great Migration. Includes an author's note about the historical context and her research. Don't miss the companion novel, *Leaving Lymon*, which centers on one of Langston's classmates and explores grief, resilience, and the circumstances that can drive a boy to become a bully-- and offer a chance at redemption. *Why Are All the Black Kids Sitting Together in the Cafeteria?* Beverly Daniel Tatum, 2017-09-05 The classic, New York Times--bestselling book on the psychology of racism that shows us how to talk about race in America. Walk into any racially mixed high school and you will see Black, White, and Latino youth clustered in their own groups. Is this self-segregation a problem to address or a coping strategy? How can we get past our reluctance to discuss racial issues? Beverly Daniel Tatum, a renowned authority on the psychology of racism, argues that straight talk about our racial identities is essential if we are

serious about communicating across racial and ethnic divides and pursuing antiracism. These topics have only become more urgent as the national conversation about race is increasingly acrimonious. This fully revised edition is essential reading for anyone seeking to understand dynamics of race and racial inequality in America.

**A Lesson Before Dying** Ernest J. Gaines, 2004-01-20 NATIONAL BOOK CRITICS CIRCLE AWARD WINNER • A deep and compassionate novel about a young man who returns to 1940s Cajun country to visit a Black youth on death row for a crime he didn't commit. Together they come to understand the heroism of resisting. An instant classic. —Chicago Tribune A “majestic, moving novel...an instant classic, a book that will be read, discussed and taught beyond the rest of our lives (Chicago Tribune), from the critically acclaimed author of *A Gathering of Old Men* and *The Autobiography of Miss Jane Pittman*. *A Lesson Before Dying* reconfirms Ernest J. Gaines's position as an important American writer. —Boston Globe Enormously moving.... Gaines unerringly evokes the place and time about which he writes. —Los Angeles Times “A quietly moving novel [that] takes us back to a place we've been before to impart a lesson for living.” —San Francisco Chronicle

**Segregation by Design** Jessica Trounstine, 2018-11-15 *Segregation by Design* draws on more than 100 years of quantitative and qualitative data from thousands of American cities to explore how local governments generate race and class segregation. Starting in the early twentieth century, cities have used their power of land use control to determine the location and availability of housing, amenities (such as parks), and negative land uses (such as garbage dumps). The result has been segregation - first within cities and more recently between them. Documenting changing patterns of segregation and their political mechanisms, Trounstine argues that city governments have pursued these policies to enhance the wealth and resources of white property owners at the expense of people of color and the poor. Contrary to leading theories of urban politics, local democracy has not functioned to represent all residents. The result is unequal access to fundamental local services - from schools, to safe neighborhoods, to clean water.

*How to Be a (Young) Antiracist* Ibram X. Kendi, Nic Stone, 2023-09-12 The #1 New York Times bestseller that sparked international dialogue is now a book for young adults!
